

SJC-SNAP Client Information Sheet June 2015

THANK YOU FOR CHOOSING TO SPAY/NEUTER YOUR PET!!!

It is the client's responsibility to follow this list of rules and instructions.

- 1) The SJC-SNAP program will finance a maximum of 2 pets per household per year.
- 2) The program covers the cost of the spay/neuter surgery only.
- 3) Proof of ALL income in the household has to be provided before applications will be processed. Income is based on annual net pay (after taxes). If government assistance is being received, please provide paperwork to prove this assistance.
- 4) The client will be notified of acceptance into the SNAP program by mail. A voucher letter will be sent to the client and the voucher will expire in 60 days.
- 5) A list of participating veterinary clinics will be included at the time the voucher is mailed.
- 6) It is the client's responsibility to contact the veterinary clinic of choice and determine responsibility for procedures needed in addition to the surgery (exam, vaccinations, tests, etc.). The client is responsible for these non-surgery costs but don't let this scare you away. The additional costs are usually affordable and with that you get a spay/neuter surgery worth hundreds of dollars. Also, some clinics do not require shots/test/exam to get the spay/neuter.

SJC-SNAP application instructions (please print or type your application):

- A. It is important to complete the application in full.
- B. Please include ALL household income and copies of official documents to VERIFY this income. **These documents should be mailed in with the application.**
